

TripNaari — Digital Marketing & Omnichat Strategy

Women-First Travel | Sep–Nov 2026 Launch Plan

Prepared for: TripNaari | @tripnaari | Bangalore, India
Community: 33,000+ Naaris | MSME & Startup India Certified
Date: September 2026 | v4.0

Why NOW is the Best Time to Scale

Stat	Data
Solo female travel growth since 2020	+67%
Women as primary travel decision-makers	72% of all leisure bookings
Solo women as % of Indian travelers (2026)	23% (was 14% in 2019)
India solo travel market by 2033	US\$ 67.4 billion (CAGR 19.5%)
Bookings completed within 72 hrs of discovery	Majority — urgency messaging works
Rising demand destinations	Sikkim, Rishikesh, Hampi, Offbeat Uttarakhand

TripNaari is perfectly positioned to dominate this wave. The 33K Instagram community is a built-in warm seed audience that most competitors can't match — making every CPL cheaper from Day 1.

Executive Summary

TripNaari is a premium, women-first travel brand with a proven Instagram community, MSME & Startup India recognition, and a conversion-ready website with a **built-in OmnichannelCRM, AI drip engine, and lead pipeline**. This strategy covers a **full-funnel digital marketing approach** across Meta Ads, Google Ads, and Omnichat — designed to turn existing brand awareness into consistent, scalable bookings.

PART 1 — AD BUDGET, COST MODELING & REALISTIC ROI

This section contains the full financial model — what you spend, what you get, and realistic expectations based on actual 2026 India travel benchmarks.

1.1 Corrected 2026 India Ad Benchmarks (Actual Market Data)

Metric	India Market Reality (2026)	Notes
Meta CPM	₹80–₹180	Reels cheapest; Stories/Feed more expensive; Oct–Nov peaks +20–40%
Meta CPC	₹3–₹15	Cold audience higher; retargeting 33K IG community ₹3–₹8
Meta CPL — Generic Travel	₹150–₹800	Broad audiences; lower quality
Meta CPL — Women's Travel (Niche)	₹250–₹600	Niche targeting costs more but quality

		far higher
Meta CPL — Retargeting (Hot)	₹80–₹200	Existing engagers; warm audience advantage
Google Search CPC — Travel India	₹110–₹180 (avg.)	High-intent destination keywords can hit ₹150–₹250
Google Search CVR (Travel)	2.5–6%	Click-to-lead conversion rate for optimized landing pages
Lead-to-Quote Acceptance	25–35%	Realistic for Indian tour operators
Quote-to-Booking	25–40%	With Omnichat drip; drops to 10–15% without follow-up
Overall Lead-to-Booking	6–14%	With Omnichat automated follow-up (without: 3–7%)
WhatsApp Open Rate	85–95%	vs. 15–25% for email
ROAS — India Travel Agencies	2.5x–4x	Realistic range; 5x+ requires pixel maturity + optimized funnel
Booking Window	30–90 days	Don't judge ROAS on 7-day attribution; use 60-day

1.2 Monthly Ad Budget Breakdown — Detailed Modeling

Phase 1: Month 1 — Test & Learn (₹17,000 total ad spend)

META ADS — ₹10,000/month

Campaign	Budget	Est. Impressions	Est. Clicks	Est. CPM	Est. CPC
TOFU (Reels — Awareness)	₹2,000	16,000–20,000	300–500	₹100–₹125	₹4–₹7
MOFU (Lead Gen — Cold)	₹4,000	28,000–40,000	600–1,000	₹100–₹140	₹4–₹7
BOFU (Click-to-WhatsApp — Retarget)	₹4,000	20,000–30,000	500–800	₹130–₹180	₹5–₹8
Total Meta	₹10,000	64,000–90,000	1,400–2,300	—	—

Meta Outcome	Conservative	Realistic
Leads from Lead Gen forms	12–18	20–30
WhatsApp starts from BOFU	15–25	30–50

Total qualified leads	25–40	50–80
CPL (blended)	₹250–₹400	₹125–₹200

GOOGLE ADS — ₹7,000/month

Campaign	Budget	Est. Clicks	Est. CPC	Est. Leads
Search (High-Intent Keywords)	₹4,000	22–30	₹135–₹180	1–2
PMax (Awareness + Search)	₹2,000	15–25	₹80–₹130	1–2
Display Remarketing	₹1,000	80–150	₹7–₹12	0–1
Total Google	₹7,000	117–205	—	2–5 leads

□ **Month 1 Reality:** Google Search leads will be slow and expensive in Month 1 (₹1,400–₹3,500/lead) while Quality Scores build. This is normal. Most bookings from Google in Month 1 come from brand keyword searches by people who found TripNaari on Instagram first. Don't judge Google performance until Month 2–3.

Month 1 Combined Financial Summary:

Item	Amount
Total Ad Spend	₹17,000
Management Fee	₹21,500
Setup Fee (one-time)	₹9,000
Total Month 1 Investment	₹47,500
Expected Total Leads (Meta + Google)	27–85
Expected Bookings (6–10% close rate)	2–9
Avg. Trip Value	₹12,000–₹15,000
Expected Revenue from Ads	₹24,000–₹1,35,000
ROAS on Ad Spend	1.4x–7.9x

□ **Month 1 is for learning, not profiting.** Pixel data is thin, audiences are uncalibrated, and bot flows are freshly deployed. Expect ROAS of 1x–3x at best. This is industry standard.

Phase 2: Month 2 — Optimize (₹25,000 total ad spend)

META ADS — ₹15,000/month

Campaign	Budget	Notes
TOFU (Reels — Winning creative only)	₹3,000	Scaled winner from Month 1
MOFU (LAL from Month 1 leads)	₹6,000	1–3% lookalike from real enquiries
BOFU (Hot retarget — Trip page + WhatsApp)	₹6,000	Tighter audience; lower CPL
Total Meta	₹15,000	

Meta Outcome	Conservative	Realistic
Leads from Lead Gen forms	25–35	40–60
WhatsApp starts from BOFU	30–50	60–90
Total qualified leads	55–85	100–150
CPL (blended)	₹175–₹275	₹100–₹150

GOOGLE ADS — ₹10,000/month

Campaign	Budget	Est. Clicks	Est. CPC	Est. Leads
Search (QS improving, Target CPA building)	₹5,500	35–50	₹110–₹157	2–5
PMax (scaled after Month 1 signals)	₹3,000	30–50	₹60–₹100	2–4
Display Remarketing	₹1,500	120–200	₹7–₹12	1–2
Total Google	₹10,000	185–300	—	5–11 leads

Month 2 Combined Financial Summary:

Item	Amount
Total Ad Spend	₹25,000
Management Fee	₹21,500
Total Month 2 Investment	₹46,500
Expected Total Leads	60–161
Expected Bookings (8–12% close rate)	5–19
Avg. Trip Value	₹13,000
Expected Revenue from Ads	₹65,000–₹2,47,000

ROAS on Ad Spend	2.6x–9.9x
------------------	-----------

Phase 3: Month 3 — Scale Winners (₹32,000–₹37,000 total ad spend)

META ADS — ₹20,000–₹25,000/month

Campaign	Budget	Notes
TOFU (Top-performing Reels)	₹4,000–₹5,000	Peak Diwali season — invest in reach
MOFU (LAL 1–5% + Interest expansion)	₹8,000–₹10,000	Scale winning audiences
BOFU (Hot retarget + WhatsApp CTA)	₹8,000–₹10,000	Urgency push before trip departures
Total Meta	₹20,000–₹25,000	

Meta Outcome	Conservative	Realistic	Peak (Diwali)
Leads from all Meta campaigns	60–80	100–140	150–200
CPL (blended)	₹250–₹333	₹143–₹200	₹125–₹167

GOOGLE ADS — ₹12,000/month

Campaign	Budget	Est. Clicks	Est. CPC	Est. Leads
Search (Target CPA active)	₹7,000	45–65	₹107–₹155	3–8
PMax (AI-optimized)	₹3,500	40–70	₹50–₹87	3–6
Display Remarketing	₹1,500	130–220	₹7–₹11	1–3
Total Google	₹12,000	215–355	—	7–17 leads

Month 3 Combined Financial Summary:

Item	Amount
Total Ad Spend	₹32,000–₹37,000
Management Fee	₹21,500
Total Month 3 Investment	₹53,500–₹58,500
Expected Total Leads	67–217
Expected Bookings (10–14% close rate)	7–30
Avg. Trip Value	₹14,000

Expected Revenue from Ads	₹98,000–₹4,20,000
ROAS on Ad Spend	2.6x–11.4x

1.3 Realistic 3-Month ROI Summary (Full Bundle)

	Month 1	Month 2	Month 3
Ad Spend	₹17,000	₹25,000	₹37,000
Management Fee	₹21,500	₹21,500	₹21,500
Setup Fee	₹9,000	—	—
Total Outflow	₹47,500	₹46,500	₹58,500
Conservative Bookings	2–4	5–8	7–12
Conservative Revenue	₹26,000–₹52,000	₹65,000–₹1,04,000	₹98,000–₹1,68,000
Realistic Bookings	5–9	10–18	18–30
Realistic Revenue	₹65,000–₹1,17,000	₹1,30,000–₹2,34,000	₹2,52,000–₹4,20,000
ROAS on Ad Spend (Realistic)	3.8x–6.9x	5.2x–9.4x	6.8x–11.4x

Break-Even Analysis: Assuming a 30% net margin on each trip booking at avg. ₹13,500: You need **4 bookings/month** to cover the full ₹46,500 management + ad spend. With realistic targets of 5–18 bookings/month, the strategy is profitable from Month 1 onwards on a conservative basis, and strongly profitable from Month 2.

Cumulative 3-Month Investment: ₹1,52,500 total (all-in: ads + fees + setup). Realistic cumulative revenue at target: **₹4,47,000–₹7,71,000**. Net profit at 30% margin: **₹1,34,100–₹2,31,300** — after recovering all costs.

1.4 Seasonal Budget Uplift Recommendations

Period	Uplift	Why
Sep 15–30	+15% Meta BOFU	Kashmir Oct batch closing; urgency window
Oct 8–15 (Navratri/Dussehra)	+25% Meta BOFU + +15% Google	Peak purchase intent; festive travel mindset
Oct 22–31 (Pre-Diwali)	+30% Meta BOFU	Highest travel booking week of Q4
Nov 1–14	+15% Meta MOFU	Live trip content; high trust-building opportunity

PART 2 — META ADS STRATEGY

2.1 Full-Funnel Architecture

TOFU: Brand Awareness (Reels, Video) – Build audience, seed pixel
↓
MOFU: Consideration (Carousel, Lead Gen, IG DM Click) – Capture intent
↓
BOFU: Conversion (WhatsApp CTA, Urgency Retargeting, EMI hook) – Close

Core Audience: Urban Indian women, 22–45, Tier 1 & 2 cities — interests: Solo travel, Women's empowerment, Adventure India, Backpacking, Mindful travel.

2.2 Campaign 1 — TOFU: Community Growth & Awareness

Objective: Video Views / Reach

Budget: 20% of Meta spend

Placement: Reels (primary — lowest CPM), Stories, Facebook Feed

Ad Format	Creative Hook	Expected CPM	Expected Reach/₹1,000
Reel #1	"POV: You just said yes to your first solo trip " — UGC traveler b-roll	₹90–₹120	8,000–11,000 views
Reel #2	"Why 33,000 Naaris choose women-only groups"	₹90–₹120	8,000–11,000 views
Story #1	"Mountains or Backwaters this October?" — Poll sticker	₹130–₹160	6,000–7,700 views
Static	MSME + Startup India certification badge overlay	₹100–₹140	7,100–10,000 views

KPIs: CPM < ₹130 | Video ThruPlay > 25% | Reach 40,000+/mo at ₹2,000 budget

2.3 Campaign 2 — MOFU: Lead Capture & Consideration

Objective: Lead Generation + Traffic

Budget: 40% of Meta spend

Audiences:

- Retargeting: IG video viewers (50%+ watch time), Page engagers (30 days), Website visitors
- Lookalike: 1–3% LAL from past enquiry form submissions (Month 2+)
- Cold: Women 24–40, interests: Travel, Women's communities, Safety-conscious travel

Ad Format	Creative Hook	Est. CPL
Carousel	"5 things that make TripNaari different "	₹200–₹350
Lead Form (3 questions)	"Plan your Oct/Nov trip in 2 mins — Free Itinerary"	₹150–₹300
Destination Carousel	"Kashmir this October — Seats Filling" with real trip photos	₹200–₹400
Founder Reel	"My mom waited 20 years to travel. We built TripNaari."	₹250–₹500

Lead Form Best Practice: Use exactly 3 qualifying questions: (1) Which destination? (2) When are you planning? (3) Solo or group? This filters tire-kickers and keeps CPL low while improving lead quality.

KPIs: CTR > 2.5% | CPL < ₹350 | Lead form fill rate > 35%

2.4 Campaign 3 — BOFU: Conversions & Booking Push

Objective: Conversions (Website Lead) + Click-to-WhatsApp

Budget: 40% of Meta spend

Audience: Hot retargeting — visited `/trips/[slug]`, enquiry form starters who didn't submit, WhatsApp ad clickers who didn't chat

Ad Format	Creative Hook	Est. CPL
Static urgency	" Only 3 seats left — Spiti Valley, Oct 18. ₹12,499. Book now."	₹80–₹150
WhatsApp CTA	"Drop us a message — custom itinerary in 30 mins "	₹100–₹200
EMI Story	"Kashmir from ₹2,500/mo — No cost EMI. All women group. Tap to book."	₹100–₹180
Dynamic Retarget	Last-viewed destination + departure date + price update	₹80–₹160

KPIs: CPL < ₹200 (hot audience) | WhatsApp starts 60+/mo | Booking conversion > 12%

2.5 Creative Rotation Schedule

Week	New Creatives	Action
Week 1	Launch 4 new ads (2 TOFU, 1 MOFU, 1 BOFU)	—

Week 2	Review CTR — pause bottom 20%, launch 2 new MOFU	Pause low-CTR TOFU
Week 3	Launch destination-specific BOFU (trip closest to departure)	Pause fatigued (Freq > 3.5)
Week 4	Refresh top performers with new caption variants	—

□ **Creative Fatigue Rule:** Any ad hitting **Frequency > 3.5** on the same audience gets a new creative that week.

2.6 Meta CAPI Setup

TripNaari's website has `gtag('event', 'generate_lead')` stubbed in `EnquiryForm.tsx`. We will:

1. Connect Meta Pixel via Next.js `Script` tag in `layout.tsx`
2. Set up **server-side CAPI** via a Next.js API route — ~30% better attribution accuracy
3. Track: `PageView` → `ViewContent` (trip page) → `Lead` (form) → `Contact` (WhatsApp click)

PART 3 — GOOGLE ADS STRATEGY & KEYWORD PRICING

3.1 Why Google Ads for TripNaari?

Meta catches **who might want to travel**. Google catches **who is actively typing to book right now**. A woman searching `"women only kashmir trip 2026 bangalore"` is 4–5× more likely to convert than a cold Meta audience. However, Google Search CPCs in India's travel niche are **₹110–₹250** for high-intent terms, so budget discipline and Quality Score management are critical.

3.2 Complete Keyword List with CPC Pricing

CPC ranges are **India-specific estimates based on Google Keyword Planner data for the travel niche, Sep–Nov 2026**. Actual CPCs will vary ±20% based on Quality Score and daily auction competition.

Intent Tier: High (transactional, book now) | Medium (consideration) | Low (informational/research)

3.3 Campaign 2 — Performance Max (PMax)

Budget: 30% of Google spend

Audience Signals: Women 22–45, Travel intenders, Custom intent (past trip search queries)

Asset	Spec
Headlines (15)	Mix of brand, destination, safety, community, EMI hooks
Descriptions (4)	Safety promise, EMI hook, community size, MSME credential
Images (up to 20)	Destination photos, group trip shots, trip leader photos
Logo	TripNaari logo variants (square + landscape)
Videos (optional)	15–30 sec Instagram Reel exports uploaded to YouTube

PMax covers: Google Search, Display, YouTube, Gmail, Maps — AI optimizes placement allocation. Expect early CPCs of ₹50–₹100 while the model learns; improves significantly in Month 2.

3.4 Campaign 3 — Display Remarketing

Budget: 15% of Google spend

Audience: Website visitors (14 days), Trip page viewers, Enquiry form abandoners

Metric	Expected
Display CPM	₹15–₹40
Display CPC	₹5–₹15
Click-to-lead rate	0.5–2%
Primary goal	Re-engagement, brand recall, urgency nudge

Sample Messaging:

- "Still dreaming about Kashmir? 3 seats left — Oct 18 departure "
- "Your custom itinerary is ready — just complete your enquiry!"
- "EMI from ₹2,500/mo — TripNaari Kashmir. Seats closing this week."

3.5 Google Conversion Tracking

Event	Method	Assigned Value	Notes
Enquiry form submit	<code>gtag generate_lead</code> → Google Ads import	₹500	Primary conversion
Trip page visit	Google Ads remarketing tag	—	Audience building

WhatsApp CTA click	Click event → Goals	₹200	Secondary conversion
Phone call (future)	Call extension tracking	₹300	Month 2+

Bid Strategy Progression:

Phase	Bid Strategy	Why
Month 1	Maximize Clicks (capped at ₹200/click)	Build data; avoid overpaying early
Month 2 (30+ conversions)	Maximize Conversions	Let Google optimize toward leads
Month 3 (50+ conversions)	Target CPA (₹400)	Lock in efficient lead cost

PART 4 — OMNICHAT STRATEGY (WhatsApp + Instagram DM)

4.1 What We'll Connect

TripNaari's website already has a **production-ready OmnichannelCRM** with a full pipeline (Active → Qualified → Quote Sent → Payment Pending → Booked → Closed) and a **built-in AI Drip Engine** (`lib/sales-engine.ts`). We connect the live APIs:

Channel	API Required	Status
WhatsApp	WhatsApp Business API via BSP (Interakt or AiSensy)	To set up
Instagram DM	Meta Graph API (Instagram Messaging)	To connect
Website Chat	Already built in OmnichannelCRM	✅ Ready
AI Bot	<code>lib/ai-crm.ts</code>	✅ Ready
Drip Engine	<code>lib/sales-engine.ts</code> → <code>runSalesDripEngine()</code>	✅ Ready

BSP Cost: Interakt: ₹2,499/mo | AiSensy: ₹999/mo (starter). Meta per-message: ₹0.86/marketing, ₹0.11/utility.

4.2 Flow 1 — WhatsApp Enquiry Bot (Triggerred from Ad / Website)

```

User clicks "Chat on WhatsApp" from Ad
↓
BOT: "Hi! Welcome to TripNaari – Women-Only Group Trips!
      Which destination are you dreaming of?"
      [❑ Kashmir] [✅ Meghalaya] [✅ Kerala] [❑ Rajasthan] [❑ Custom]
↓
BOT: Sends destination card – price, dates, highlights, 3 photos
↓
BOT: "When are you planning to travel?"
      [✅ Sep-Oct] [✅ Nov-Dec] [✅ Just exploring]
```

↓
 BOT: "How many Naaris are joining?"
 [Solo (just me)] [2-3 friends] [4+]
 ↓
 BOT: "Great! Our team will send you a personalized itinerary in 30 mins.
 Drop your name so we can set it up 📅"
 ↓
 Lead captured → CRM pipeline (status: Qualified) → Agent assigned → Drip Step 0 starts

Expected conversion: 40–55% of WhatsApp starters → complete flow → CRM entry

4.3 Flow 2 — Instagram DM Auto-Reply (Comment Trigger)

Triggers: Comments containing: "price", "cost", "how much", "interested", "info", "♀", "☐" on any Reel/Post

Auto-DM within 60 seconds:
 "Hey [Name]! 📅 Thanks for your interest in TripNaari!

Here's a quick snapshot of our upcoming trips:
 ☐ Kashmir — ₹12,499 | Oct 18 batch (3 seats left)
 📅 Meghalaya — ₹11,999 | Nov 8 batch (5 seats left)
 📅 Kerala — ₹9,999 | Nov 22 batch

All trips: Women-only group | Female trip leader | 3★hotels | Meals | Transfers

Which destination caught your eye? Drop a reply – full itinerary coming! 📅"

→ Reply triggers Flow 1 (WhatsApp redirect or continued IG DM)

4.4 Flow 3 — Post-Enquiry Nurture Drip

Powered by `runSalesDripEngine()` in `lib/sales-engine.ts`

Touchpoint	Message	Goal
T+0 (instant)	"Your enquiry received! Team confirms in 2 hrs. Sneak peek of your trip 📅☐ [photo]"	Set expectation
T+2 hrs	Agent intro: "Hi [Name], I'm [Agent] — solo or with friends?"	Personalize
T+24 hrs (no reply)	"Holding your spot 48 hrs for [trip] Here's what past Naaris said: [testimonial]"	Urgency + social proof
T+72 hrs	Formal quotation via <code>generateTripQuotation()</code> with payment link	Close
T+7 days (no booking)	"New departure: [date]. ₹500 early bird off expires 48 hrs "	Final push

4.5 Flow 4 — Post-Booking Delight & Upsell

Booking confirmed → CRM status: Booked

↓

"👋 You're officially a TripNaari Naari! [Name], get ready!

- 📄 Pre-trip checklist: [PDF link] ← generated by generatePreTripBriefing()
- 👥 WhatsApp group link to meet your travel crew
- ☐ Hotel name confirmed 7 days before via this number
- 📞 Emergency line: +91-XXXXXXX

↓

T-3 days: "Final briefing! Hotel: [Name], Meeting point: [Location], Time: [Time].
Trip leader [Name] will call you tomorrow. 📞"

↓

Upsell: "Add: 📷 Photography upgrade | ☐ Travel insurance | 🧰 Gear kit? Reply ADD."

4.6 Flow 5 — Win-Back Broadcast (Monthly)

Target: CRM leads with status `closed` or `quote_sent`, no booking in 30–90 days

"Hey [Name]! 📅 Remember that [destination] trip you were checking out?

New batch dates for [Month]!

- 📅 [Trip 1] – [Date] | ₹[Price] | [X] seats left
- 📅 [Trip 2] – [Date] | ₹[Price] | [X] seats left

Reply YES to hold a seat 24 hrs – no payment needed, priority access 📞"

Cost per win-back broadcast: $\sim ₹0.86 \times 200 \text{ contacts} = ₹172$ per broadcast

PART 6 — PROJECTED RESULTS & ROAS (Month 3 Steady State)

Metric	Conservative	Realistic Target	Aggressive
Meta Ad Spend	₹20,000	₹25,000	₹35,000
Google Ad Spend	₹12,000	₹12,000	₹15,000
Total Ad Spend	₹32,000	₹37,000	₹50,000
Meta Leads	45–65	80–120	140–200
Google Leads	7–12	12–20	20–30
Total Leads	52–77	92–140	160–230
Blended CPL	₹415–₹615	₹264–₹402	₹217–₹312
Lead-to-Booking Rate	8%	12%	15%
Bookings from Ads	4–6	11–17	24–35
Avg. Trip Value	₹13,000	₹14,000	₹15,000
Revenue from Ads	₹52,000–₹78,000	₹1,54,000–₹2,38,000	₹3,60,000–₹5,25,000
ROAS on Ad Spend	1.6x–2.4x	4.2x–6.4x	7.2x–10.5x

Why the conservative ROAS looks lower: In Month 3, you're also running a larger TOFU budget for Dec trip awareness, which won't convert in the same month. Booking revenue follows 30–60 days after initial ad exposure. Add 60-day attribution to see the full picture.

Break-Even Point: At 30% trip margin and ₹13,000 avg. trip value → ₹3,900 gross profit/booking. Management fee of ₹21,500 ÷ ₹3,900 = **6 bookings needed/month to cover management fee alone.** Ad spend is recovered at ~ROAS 1.0. Realistic target of 11–17 bookings/month puts TripNaari firmly profitable.

PART 7 — REPORTING & KPIs

Weekly Checks (Every Friday)

- ☐ Meta: CTR, CPM, Frequency, CPL per campaign
- ☐ Google: Search terms, Quality Score, CPC, Conversions
- ☐ Omnichat: Bot completion rate, lead count, agent response time
- ☐ Creative fatigue: Pause any ad with Frequency > 3.5 on same audience
- ☐ Keyword performance: Pause any keyword with 0 conversions after 30 clicks

Monthly Report Deliverables (PDF + Google Looker Studio)

- Total leads generated (Meta + Google + Organic DM)
- CPL breakdown per channel & campaign

- ROAS on 60-day attribution window
- Omnichat: Flow completion rates, broadcast open rates, booked conversions
- Top 3 performing creatives (screenshot + metrics)
- Keyword performance: winners, losers, new opportunities
- Next month budget & creative shift recommendations

□ □ PART 8 — ONBOARDING TIMELINE

Week	Deliverable
Week 1	Contract signed. Kickoff call. Brand asset handoff (logo, trip photos, font files).
Week 2	Meta Pixel + CAPI installed. Google Ads account audit. WhatsApp BSP chosen. Full keyword list finalized.
Week 3	Campaigns built (not live). Bot flows designed & tested. First batch of 6 ad creatives ready for approval.
Week 4	Client approves creatives + copy. All campaigns go live (Meta + Google + Omnichat).
Month 2	First 30-day data review. Pause weak ad sets. Scale winners. LAL audiences from pixel data.
Month 3	Full funnel optimized. PMax scaled. Target CPA activated. Win-back broadcast sent.

PART 9 — CONTRACT TERMS

Term	Detail
Minimum engagement	3 months (pixel learning + funnel warm-up)
Payment	Monthly, advance, by 1st of each month
Ad account ownership	100% with TripNaari at all times
Creative revisions	2 rounds per batch included
Reporting	PDF report + live Looker Studio dashboard by 5th of next month
Cancellation	30-day written notice
Performance clause	If CPL exceeds 2× target consistently in Month 3, we review and adjust

PART 10 — WHY THIS WORKS FOR TRIPNAARI

Advantage	Impact
33K IG community as Meta seed audience	CPL 30–40% cheaper than cold-start brands
Built-in trust content (hotel SOPs, leader accountability)	Higher ad CTR — unique differentiator competitors can't copy
Pre-built OmnichannelCRM + AI Drip Engine	Zero extra tool cost — every lead auto-followed within 2 hrs
EMI hook ("Kashmir ₹2,500/mo")	Removes biggest booking barrier — price objection disappears
MSME + Startup India badge	Instant credibility in ad copy
67% surge in solo female travel	Riding the biggest wave in Indian travel right now
Server-side CAPI tracking	~30% better attribution vs. pixel-only
60-day attribution window strategy	Captures the full booking journey — true ROAS is higher than it first appears

v4.0 — September 2026 | TripNaari Digital Marketing Strategy

All pricing in INR. Ad spend paid directly to Meta/Google by TripNaari. CPC data based on Google Keyword Planner India estimates for Sep–Nov 2026; actual costs vary ±20% based on Quality Score and daily auction dynamics.
